

YOUR RIGHTS ARE EVERYTHING

CHARLES C. BOURQUE

Chuck focuses his practice on aviation and maritime casualties. Twenty-six years of experience as a helicopter pilot in the US Army and Louisiana National Guard provides Chuck with a unique insight in litigating helicopter crashes occurring offshore and on land.

"There are some very specialized issues in our cases because of the unique equipment involved. Whether it's a platform in the Gulf or a helicopter transporting personnel to that platform, when something goes wrong the results can be catastrophic. That's when these families really depend on us."
